

Junior Academy Cost:
Residential \$60,895
Semester \$34,245

devoted to developing champions

The Junior Academy is a nine month residential program that provides a world class golf experience for junior golfers. The goal of the program is to provide each student with the skillset necessary to reach their full potential as golfers. The program focuses on developing each student in all four areas of the game: **Technical, Mental, Physical, and Strategy.**

Due to the level of individualized attention given each student, enrollment in this program is limited to 12 juniors golfers.

Crown Golf is predicated on the development of the student golfer as a well-balanced athlete, a sportsperson, and a budding professional. Any of the great players of this game will tell you that there is so much more to golfing well – especially golfing well in tournament play - than simply striking the ball. This is why we focus equally on the technique necessary to have a consistent swing and hit shots like a pro, the mental focus and toughness required to fight through injury, adversity or a critical hole under pressure, the physical fitness needed for a player to stretch to their potential, stay healthy and continue playing without injury, and finally the strategic capability expressed by the sports' top practitioners that encompasses club selection, course management and working through a myriad of other factors.

Crown Golf Junior Academy is designed to give each player an opportunity to maximize their potential.

Students will receive:

- world-class golf instruction
- athletic development
- mental coaching

The Junior Academy equips young players with all of the tools needed to maximize their golf potential.

The program creates an individualized developmental pathway for each player. The Crown Golf culture will teach the players to become independent-thinking golfers who work hard, know the rules, and play the game with honesty and integrity. Our players excel at shooting low scores, managing their time, and practicing effectively.

Why Crown Golf Junior Academy?

Proven Developmental Success!

Our graduates have played in the Masters, US Open, US Women's Open, Canadian Women's Open, Volunteer of America Classic, and other TOUR events. Our juniors have earned the titles of Latin American Amateur Champion, US Women's Amateur Champion, US Amateur runner-up, US Junior Girls' runner-up, AJGA Thunderbird Champion, Women's Southern Amateur Champion, and many other prestigious titles.

World Class Team!

The Crown Golf team includes award-winning teachers, a PGA Champion, an Olympic Gold Medalist, golf biomechanics experts, a skilled athletic developmental team, and a staff that is dedicated to helping each player reach their full potential.

Academics

Crown Golf Academy students will attend Spring Creek Academy or, if preferred by a student and their guardians, may home school while participating in programs at Crown Golf. Spring Creek Academy has a distinguished tradition and has earned its place among the leading private schools in the Dallas/Fort Worth Metroplex. Spring Creek Academy is a private school for gifted and talented students who seek an alternative to the traditional school schedule and require smaller class sizes and a flexible class schedule that allows them to pursue competitive extracurricular activities.

Spring Creek Academy is a fully accredited private school for children grades K through 12 and is chartered by the Texas Alliance of Private Schools and the Texas Education Agency. All faculty members are highly experienced, fully credentialed, dedicated professionals. For more information about their kindergarten, elementary, secondary or high school programs or to schedule a tour, please call (972) 517-6739 or email them. We encourage prospective students and their parents to request an information packet from Spring Creek Academy and browse their website for more details on the school and its programs.

Mental Training

Mental Management Systems will oversee the mental component of the Crown Golf Junior Academy program. Mental Management is “the process of improving the probability of having a consistent mental performance under pressure, on demand.”

This program was founded by Lanny Bassham, who used his own program to win an Olympic Gold Medal in 1976 in International Rifle Shooting. Mental Management Systems clients have included PGA and LPGA TOUR players, members of the US Secret Service, US Navy Seals, the US Marine Corps Marksmanship Unit, Miss USA winners, World and Olympic Champions, and many others.

Junior Academy members will meet with Mental Management Systems bi-weekly and will be given a Performance Journal to log their progress.

We are devoted to developing champions! Contact us today and start your quest to excellence.
